Special Programs and Services		The Special Programs and Services department provides leadership and supplemental supports for diverse learners, special projects, early learning, school nursing, and special education administrative services.
Early Childhood Services		Early Childhood Special Education (Preschool 619 Program Support) services are provided through local school districts for children ages three to five who are demonstrating developmental delays or identified disabilities. The NWESD is happy to provide school district support, inclusionary practices support, technical assistance and training updates to providers, community preschools, teachers, therapists and families.
Northwest Regional Learning Center (NRLC)		The Northwest Regional Learning Center (NRLC) serves high school students, most of whom are disenfranchised or court-involved. The program offers small class sizes, individualized attention, and an alternate environment to the traditional high school campus. Students have the opportunity to earn credits for their high school diplomas; prepare for the GED; develop a post-school plan; and build skills for a successful transition back to their home schools or into the community.
Paraprofessional Assessment Testing	4	The ParaPro Assessment measures the skills and knowledge in reading, writing, and math skills possessed by prospective and practicing paraprofessionals. It also measures their ability to apply those skills and knowledge when assisting in classroom instruction.
Pre-Employment Transition Services	4	Our Tranistion Services Specialist will work with the teachers and students in your school district to: assess their strengths and interests; analyze individual and class data; use data to explore certain career fields; involve the community based upon student interest data; use data to guidepost secondary education exploration; and work through self advocacy and workplace readiness skills.
School Nurse Corps	4	The School Nurse Corps (SNC) program is a statewide program funded by the state apportionment to provide registered nursing services to small and rural school districts with limited or no school nursing services. SNC in partnership with schools, families, and communities, advances student health, safety, and readiness to learn.
Skagit, Snohomish, and Whatcom Detention Educations Programs	4	Through state apportionment, the NWESD works closely with the Juvenile Detention Centers in Skagit, Whatcom and Snohomish Counties to provide educational programs in a structured learning environment with certificated special education teachers and paraprofessionals. Through separate federal funding, each detention center provides transitional services to assist students in returning to their home school districts, moving out into the community, and preparing to take the GED.
Skagit, Snohomish, and Whatcom Discovery Education Programs	4	The Discovery education programs serve elementary, middle, and high school students experiencing significant social, emotional, and behavioral difficulties. The goal is to have students develop sufficient internal discipline so that little external reinforcement is required. In addition to the behavior management system, social and emotional goals are taught daily.
Special ED Admin Support Professional Development	4	At the NWESD we strive to advance educational outcomes for all students with disabilities or otherwise demonstrating high academic vulnerability. The NWESD provides training, technical assistance, and consultative services to districts in support of OSPI's State Performance Plan (SPP) for Special Education, as delineated within the federal Performance Indicators.
Teaching and Learning Services		The Teaching & Learning Department is committed to offering quality professional development and technical assistance to our region's districts.  Our coordinated services will assure equity and opportunity to all of our region's students to help prepare them for college, career and citizenship.
Beginner Educators Support Team (BEST)	4	The BEST program provides support for new teachers in Washington State through comprehensive induction with funds and professional learning opportunities.
Career Connected Learning		The goal of the Career Connected Learning (CCL) Network is to provide coherent and aligned technical assistance and professional learning. An indicator of the success of the CCL Network is the successful development, support, and expansion of CTE graduation pathways in school districts.
Climate Science	4	The NWESD is excited to partner again with OSPI, the Association for Educational Service Districts (AESD), and community based organizations to continue our learning about climate science. The Climate Science Education program allows us to reach Pre K – 12 educators within our region as well as provide support for outreach across the state.
Curriculum Directors	4	Discussing current initiatives, supporting our principals and teachers to improve achievement of all our students.
District Assessement Coordinators	4	Support and resources for those in the NWESD region that serve as District Assessment Coordinators within their district.
ELA Fellows		Fellows are teacher leaders who work in partnership with ESD content coordinators, OSPI Teaching and Learning leaders, and district/building and program leaders to support professional learning within their school, district, or early learning program.
Highly Capable Cooperative	4	The Highly Capable program supports administrators and teachers with the understanding of the Highly Capable law and assists with the development of enhanced learning programs for all students based on their needs.
Inclusionary Practices Project (IPP)		The Inclusionary Practices Project (IPP) includes professional learning experiences to guide the development and implementation of sustainable systems, structures, and practices that support all students with meaningful access and engagement in inclusive learning environments.
Knowledge Bowl		Knowledge Bowl is an academic contest for high school teams where students with expertise in a variety of topics team up to answer randomized questions related to history, math, literature or science.
Literacy Regional Support		The NWESD Regional Literacy Coordinator provides evidence-based professional services in literacy for educators throughout our region.
Math Fellows		Fellows are teacher leaders who work in partnership with ESD content coordinators, OSPI Teaching and Learning leaders, and district/building and program leaders to support professional learning within their school, district, or early learning program.
Math Regional Support		The NWESD Regional Math Coordinator supports instructional shifts toward productive mathematical instructional routines that engage all students in meaningful mathematics
Migrant Education Program		The NWESD Migrant Education Program (MEP) is funded by the Washington State OSPI MEP Office and is contracted to deliver quality services to school districts with and without their own Migrant Education grants throughout western Washington.
MLL Cooperative		The purpose of the NWESD MLL Cooperative is to: develop capacity for ELL Specialists to deliver training within their own district; provide support and training to district leader to build an effective MLL program; provide teacher training to member districts while internal capacity is being developed.
Paraeducator Certificate		The Paraeducator Fundamental Course of Study (FCS) is the foundational training to the certificate program that all paraeducators must receive. The NWESD provides both individual and district opportunities for the FCS.
Regional High School Art Show		Each spring the NWESD hosts a Regional High School Art Show with submissions from schools around our region. High school students from all nine of the state's educational service districts (ESDs) participate in this artistic celebration each year.
Science Fellows		The Science Fellows Network is a convening of district teacher leaders who are engaging in action research for their district's transition to the Next Generation Science Standards. The Science Fellows develop their leadership capacity to engage in leadership locally (in their own district) as well as regionally.
Science Materials Cooperative	4	The Science Materials Center (SMC) is a NWESD cooperative that provides cost-effective science kit refurbishment services to member districts. We take care of purchasing and prepping kit materials allowing teachers to spend more time teaching science and less time managing materials.
Science Regional Support		The NWESD Science team supports instructional shifts and systemic changes necessary so all students engage in the vision painted by A Framework for K-12 Science Education .
System & School Improvement	4	The NWESD School Improvement Team in partnership with the Office of System and School Improvement (OSSI) are committed to closing the opportunity gap by working collaboratively with educational partners to create support for schools in our region.
Teacher Principal Educator Program (TPEP)	4	The Teacher Principal Evaluation Program (TPEP) provides training opportunities in each of the available leadership and instructional frameworks (AWSP, CEL, Danielson, Marzano). In addition to framework trainings, NWESD is also available for eVAL training and technical assistance, Rater training, and consulting.
Technology Services		The Technology Services department has been providing technology solutions for the NWESD Pre-K-12 schools since 1998. The NWESD technology department can enhance your existing IT team and improve technology support for both students and staff, ensuring smooth implementation of new programs such as new facilities, 1-to-1 initiatives, software migration, and much more.
K20 RITU	4	The K-20 Education Network makes high-speed Internet accessible and affordable to Washington States Educational Communities.
Network Support Services - Tech Services	4	The NWESD's Information Technology (IT) team can provide behind—the-scenes assistance to keep your district's IT systems running smoothly.
Technology Director Services		NWESD offers comprehensive Technology Leadership Support including Technology Director Services. Our Director Services help districts manage technology infrastructure and teams with a focus on service levels, security, and process improvement.
