

Principles of Applied Behavior Analysis

Course Description

Participants will receive instruction through a cooperative partnership between the University of Washington Autism Center and Northwest Educational Service District 189. Instruction is provided through five in-person sessions at NWESD in Anacortes.

Objectives

Participants in this training will:

- Examine and apply instructional strategies utilizing the Principles of Applied Behavior Analysis;
- Collect and analyze student data; and,
- Develop intervention and instructional plans based upon data collection.

Additional Information

This training meets the coursework requirements for those pursuing Registered Behavior Technician (RBT) Certification. Visit this website for additional requirements:
