Interim Assessment Classroom Activities

Assessment Viewing Application

1. Training Card: TA administrator can access practice tests for SBA & MSP practice sessions. With the change in science being online in our district, students & staff should have an opportunity to practice the MSP interface. There are in-class activities for the practice test in the resource section.
2. Test Coordinator or Test Administrator Resources – We will discuss these differences in more detail on the next few slides.
3. TIDE: While a TA can look-up in student information in TIDE, the SC manages or designates one staff member to manage the changes in student assessment options. More on this in an upcoming slide.
4. Test Administrator Certification is not required at this time and most of the information is covered in this PPT.
5. Test Administration used to launch both the summative & interim assessments and has a new look.
6. Interim Hand Scoring System – Must hand score both PT & CAT sections to get a score in ELA or math
7. Online Reporting System - Plan & Manage Testing, Testing Summary Statistics; print Score Reports; Manage Rosters – Be sure to add new students to roster before testing is completed.
8. Digital Library – Resources for teachers based on CCSS targets
9. Interim Assessment Classroom Activities – In-Class activities used prior to administering interim PTs
10. Assessment Viewing Application – For teachers and administrators to view and become familiar with interim assessments before administering the test.
