<b>Questions from the Region</b> Ideas for sharing assessment resources with changes to the NWESD website	NWESD is in the process of migrating to a new website. With that being said, we are also making all of our website content ADA compliant. Using the NWESD website for document sharing won't be possible. During the meeting on Friday the group agreed to begin using Dropbox. I will set up the file structure in Dropbox and send invites to everyone on my DAC email distribution list. For now, please review the resources that are shared on the current <a href="#">NWESD DAC site</a> and let me know if they are outdated or should be moved to the new Dropbox files. Once the Dropbox account is established I will send further instructions on how to access and requirements for posting documents.
