Intellectual Need in the Math Classroom

January 14 th , 2014	ESD 112 Vancouver, WA
January 15 th , 2014	ESD 113/114 Shelton, WA
January 16 th , 2014	ESD 121 Burien, WA
February 3 rd , 2014	ESD 101 Spokane, WA
February 4 th , 2014	ESD 123 Pasco, WA
February 5 th , 2014	ESD 105 Yakima, WA

Time: 8:30 AM to 3:30 PM

Cost: \$200

Go to: www.ted.com/talks/dan_meyer_math_curriculum_makeover
to see a presentation by Dan Meyer!

We threaten and we persuade. We try to add real-world context to problems. In spite of our efforts, students often disengage from mathematics still.

Mr. Meyer will describe research-based methods for instilling on students a need for new learning. Participants will learn how to make the Common Core State Standards' modeling practice accessible to students, resulting in engagement and higher achievement.

As part of their work, the presenter and the participants will construct a website full of resources, including a document of "rules for the road" – easily implemented techniques for putting students in that state of intellectual need. That website will remain online after the presenter's on-site work is complete.

Follow-up Sessions
March 17th or 18th
April 15th or 16th
May 12th or 13th
June 3rd or 4th

- Cost includes
- one day workshop with lunch provided
- optional participation in follow-up virtual sessions with Dan Meyer

- 6-10 clock hours available.
- Space is limited to 60 participants per region.
- Laptops are highly recommended but not required.
