

# Northwest Math Leadership Network

**Northwest Educational  
Service District 189**

*Together We Can*

## 2015-16 Math Leadership Network

Promote equity in mathematics education through teacher practices which focus on perseverance and sense making in order to prepare students for college and career.

Regional Mathematics Coordinator, Mary Ellen Huggins, will facilitate the Math Leadership Network (MLN) for the 2015-2016 school year. Our focus will continue to be on building teacher leadership capacity for implementation of what are now referred to as the Washington State Mathematics Standards.

We will engage in strategies that impact instruction including the overlap of content and practice standards, student access and equity, and protocols around looking at student work to develop next steps. In addition, members of the MLN will reflect on their role as a leader in their respective buildings and districts. As a network educator, you will have an opportunity to share your learning around leadership experiences.

As an optional component, MLN members are invited to attend our Number Talk Practicum from 4:00-6:00 PM on the first three MLN meeting dates.\*

New members are invited to participate. Please note that we ask for those who enroll to make every effort to attend all four meetings.

### Dates

- October 20, 2015 \*
- December 3, 2015 \*
- March 17, 2016 \*
