

What Is *i-Ready*?

i-Ready Introduction Video

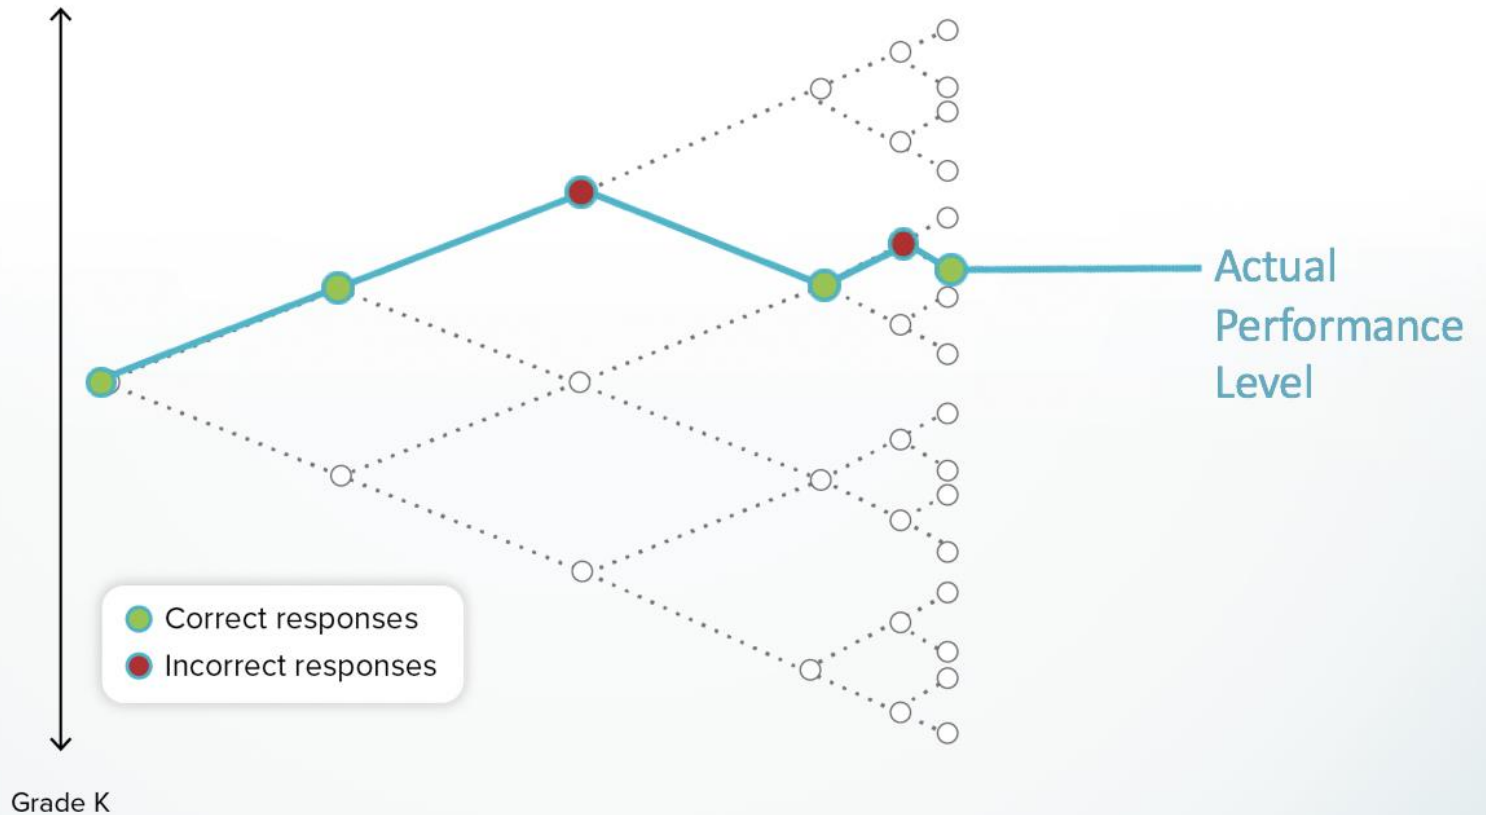

i-Ready Diagnostic Quick Facts

- Built from CCSS to measure both growth and performance
- Administered every 12–18 weeks
- Provides a comprehensive analysis of each student's needs across domains on a K–12 continuum
- Provides domain-specific scores and grade-level placements, updates instructional recommendations, and resets online lesson plans with each administration
- Is the primary instrument for measuring student growth within a year and for predicting end-of-year proficiency levels

Adaptive Diagnostic Assessment

Question
Difficulty

Grade 12

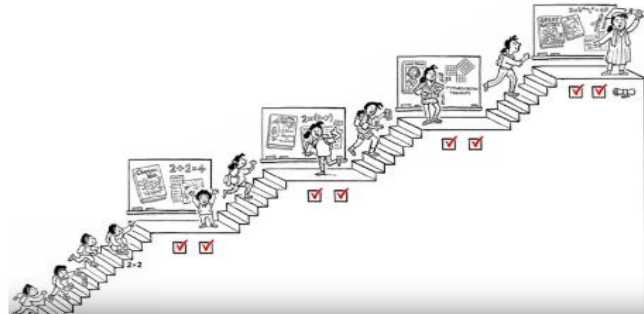

Criteria Vs Normed

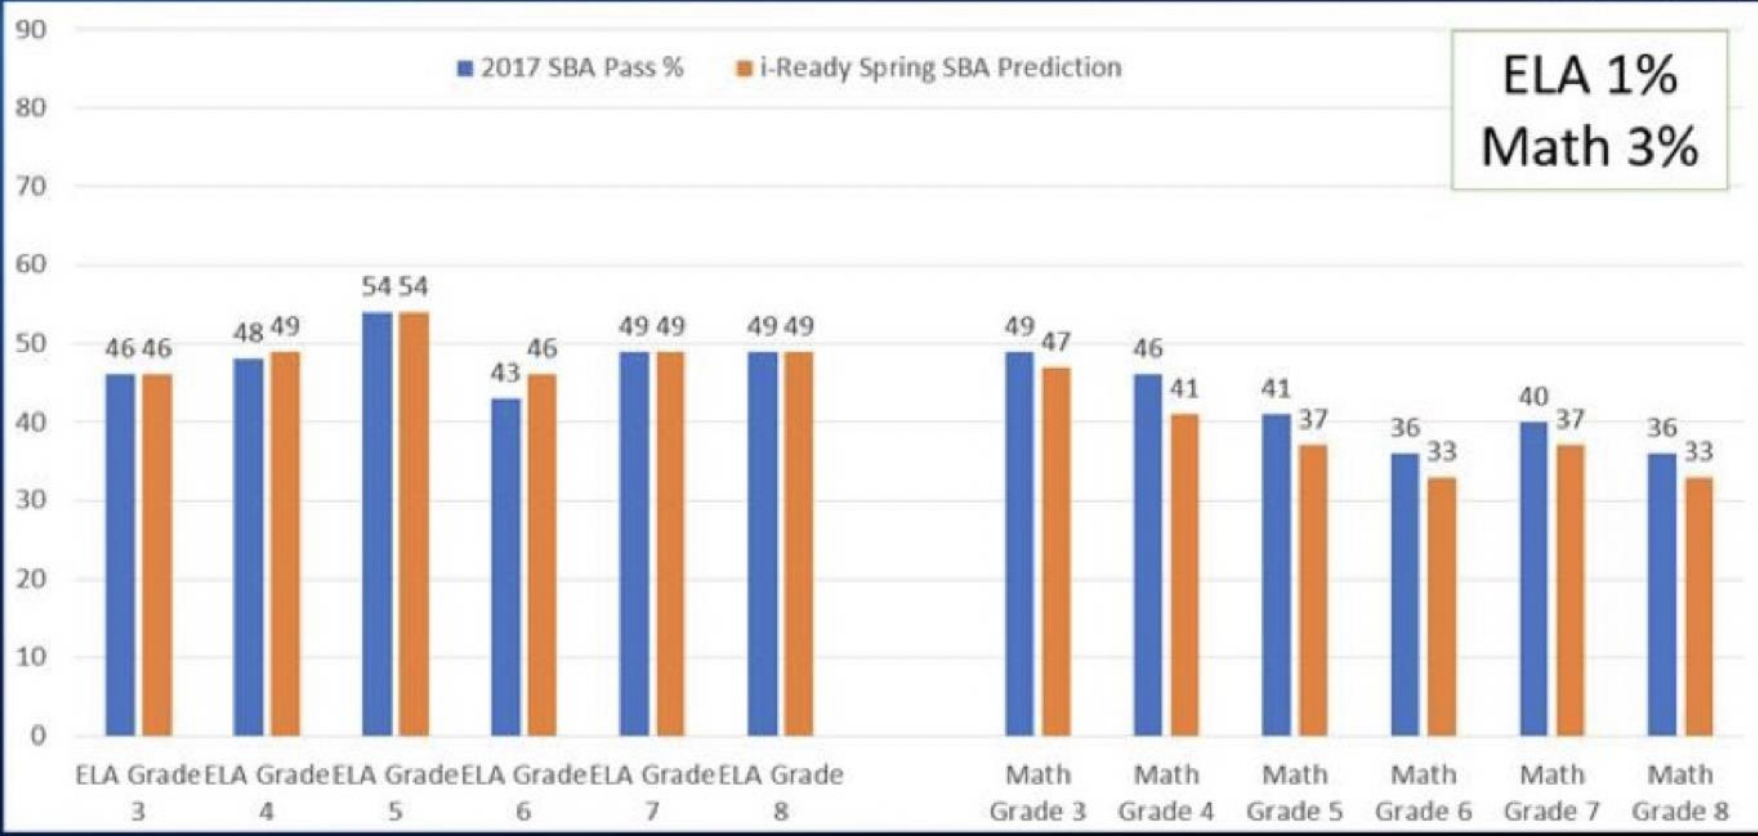

Norm Reference Diagnostic - (STAR) ranks student Performance to other students performance on learning skills (local and nationally).

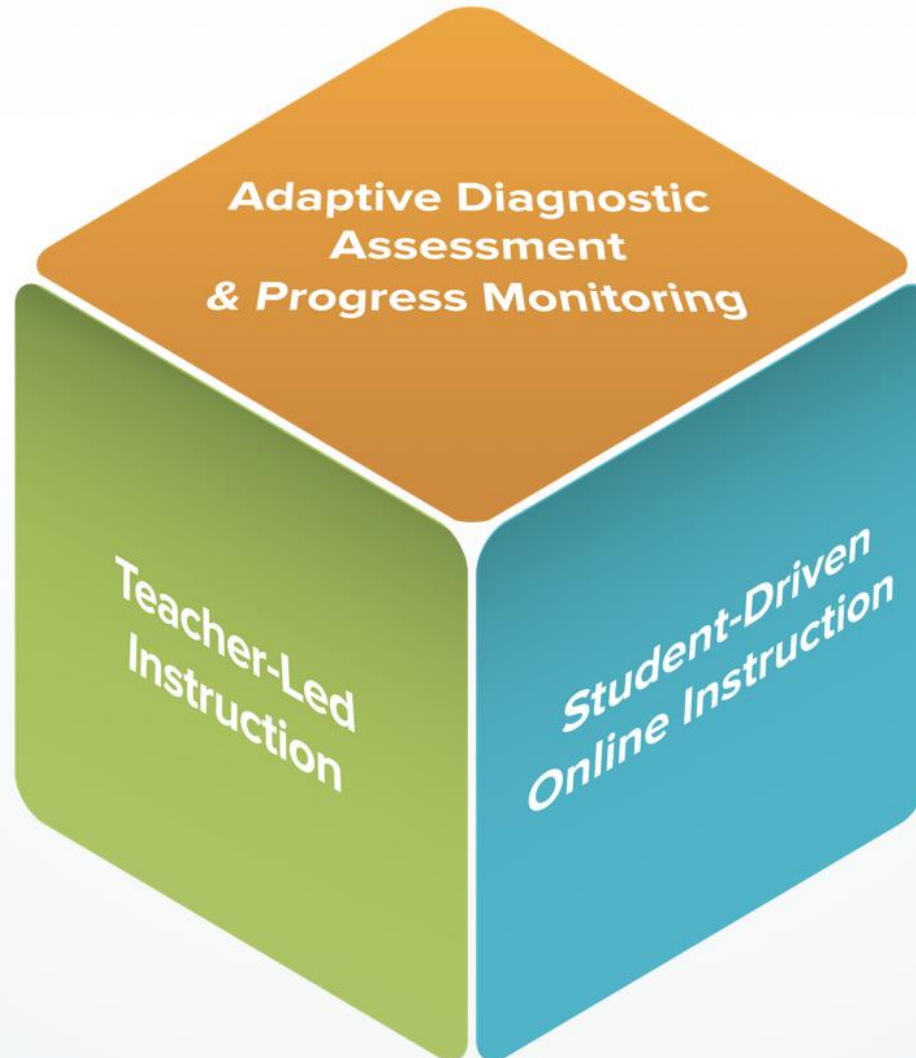

Criterion-Referenced Diagnostics - (i Ready) Compares students performance to a standard of mastery (Washington State Teaching Standards)

iReady Prediction to SBA Spring 2017
