

Northwest Math Leadership Network

**Northwest Educational
Service District 189**

Together We Can

2014-15 Math Leadership Network

Promote equity in mathematics education through teacher practices which focus on perseverance and sense making in order to prepare students for college and career.

Mary Ellen Huggins is now part of the NWESD team, serving as the Regional Mathematics Coordinator. As you know, it is an amazing time to be part of our state's education system and we are looking forward to a year of focused work with mathematics.

For the past several years, members attended the Math Professional Learning Community. We would like to continue the work of this group. However, we will now be known as the Math Leadership Network (MLN).

Our focus will be on building capacity for implementation of what are now referred to as the Washington State Mathematics' Standards, which are the Common Core State Standards, and improved instructional capacity. We will engage in strategies that impact instruction including but not limited to, lesson planning, student engagement and protocols around looking at student work to develop next steps. We will meet four days throughout the year.

Dates

- October 21, 2014
- December 2, 2014
- March 12, 2015
- May 28, 2015
