Letter of Welcome

May 25, 2018

Dear Middle School OpenSciED Pilot Teachers,

You are receiving this email because you have been selected by your district to pilot 2 middle school science units from the OpenSciEd curriculum during the fall and spring of the 2018-2019 school year. I've attached an overview of the project in case you are interested in learning more about it.

Next steps:

- Please read the *Participant Responsibilities* document attached.
- Please let your Regional Science Coordinator (RSC) know if you have the supply materials for piloting the units.
- Please provide your RSC with summer contact information and confirm your attendance at the August 6, 7, 8, and 9 training in Camas, WA. You must attend all four days.
- Finally please reach out to your RSC with any questions.

I look forward to seeing you in August in Camas, Washington. I am grateful for your participation and I hope you are as excited as I am about this opportunity.

Sincerely,

A handwritten signature in cursive script that reads "Ellen K. Ebert".

Ellen K. Ebert, PhD
Director, Learning and Teaching Science, Environment and Sustainability Education
Office of the Superintendent of Public Instruction
