

Completing the Evaluation of the Instructional Frameworks

Purpose: To deepen participants' understanding of the Instructional Frameworks

Intra-District groups: Facilitator, Timekeeper, Recorder, Norm Monitor, and Presenter

Protocol

- | | |
|------------|---|
| 15 minutes | Individually, participants will analyze the rubric and notes from the video to determine and then list the pluses and the deltas for the framework under consideration. Use the plus/delta document. |
| 15 minutes | Each group member reports his/her plus/delta list as a facilitator records them one participant at a time. After the first participant is finished, the second participant will first note which previously named items are repeated on his/her list (facilitator will make asterisk for each repeated item) and then name any new items. Continue until all have been heard. |
| 5 minutes | Presenter from each group shares out top 2-3 pluses and deltas to entire group. |
