

Selection of District/Consortium Instructional Framework/Rubric Intra-District

Purpose: to work as a district team to make a collective choice of a preferred instructional framework for future research/use.

Intra-District groups: Facilitator, Timekeeper, Recorder, Norm Monitor, and Presenter

Protocol

30 minutes
(Alone)

Individuals review each of the three frameworks using pertinent documents and all of their notes and data to rank-order the three frameworks using the *TPEP-RIG Combined Instructional Framework Rank Order* (green) form.

Individuals transfer the rankings to the first columns of the *Instructional Framework Nominal Group Technique (NGT)* (white) form. This reveals their individual first, second and third choice.

15 minutes
(Team time)

Individuals share the individual rank and score of each instructional framework with their team members.

Recorder uses the *NGT Prioritization* form to note the rank and corresponding point value for each team member then adds total points to reveal the two collective choices.

15 minutes
(Large group)

Each reporter shares the rank and score of his/her District's (up to) two preferences with the larger group, identifying the NWESD TPEP-RIG instructional framework(s) choice(s).
