

**NWESD TPEP RIG 1 Work Group Meeting
February 21, 2013**

Essential Questions for the year:

- How do we deepen our knowledge of the purpose and substance of Washington State's revised evaluation criteria for teachers and principals in order to guide decisions which have the promise to improve student learning?
- How do we use instructional and leadership framework models to provide us with a way to operationalize (via language, evidence, and artifacts) the revised four-tiered evaluation system to improve leading, teaching, and learning?
- How do we use and add to a professional development plan to build principal and teacher readiness to pilot a new district evaluation model?
- How do we establish and implement systems and structures that continue to improve collaboration and communication about this project within our district(s)?
