Approval is required by the NWRDC Director and WSIPC Operations department heads. Advance communication will be sent to the NWRDC Director and WSIPC Operations departments. At the conclusion of downtime, communication will be sent to this same group.

Late Night: Monday – Sunday; 11:00 PM – 6:00 AM

Defined as hours during which backups, system reboots and maintenance can occur. Elective downtime may be scheduled with same-day notice. Services may be unavailable. Advance communication will be sent to the NWRDC Director and WSIPC Operations departments. At the conclusion of downtime, communication will be sent to this same group.

SMS 2.0 Release Weekend: Saturday; 12:00AM – 9:00 PM

Defined as three time yearly period during which SMS 2.0 application software, hardware and operating system maintenance is performed. Expect services to be unavailable. Approval required by the Data Center Director(s) and WSIPC Operations department heads. Advance communication will be sent to the Data Center Director(s) and WSIPC Operations departments. At the conclusion of downtime, communication will be sent to all data centers and WSIPC Operations departments. The approved down time schedule will be communicated regularly throughout the year to reduce the number of surprises to Cooperative members.

Qmlativ Releases

WSIPC Qmlativ software update releases are an automated function. WSIPC has designated the timeframe of 11 PM to 5 AM for these functions. The frequency of releases is biweekly, and patches when needed. Timing can change at the direction of Skyward.

Emergency Downtime

Emergency downtime can be performed for degradation of hardware or software components for which either of the following is true:

- The software or hardware is part of the failover system for a mission-critical system.
- The software or hardware is a single point of failure for a mission critical system.

Emergency downtime can be requested between the hours of 6:00 PM and 6:00 AM with same-day notice or an agreed upon elected time with same-day notice. Advanced communication will be sent to the Data Center Director(s) and WSIPC Operations departments. At the conclusion of downtime, communication will be sent to this same group.

Service Continuity

In the event of complete failure of the SMS 2.0 centralized hosting provided by the Cooperative a failover system is in place for limited mission-critical access to core software and data systems. Backup or redundant capacity exists for database, servers and network. This failover capacity will only be used for dramatic and sudden system failure of the primary hosting center, but will not be utilized during normal, routine, or scheduled down time. WSIPC also has a redundant network link to provide connectivity in the event of an outage with the primary K-20 circuit. Virtual Router Redundancy Protocol (VRRP) communicates to two routers, K-20s 10GB router and the Comcast router connected to a provisioned switch.

SOFTWARE

Delivery

WSIPC, in conjunction with NWRDC, will ensure the software WSIPC provides complies with state reporting, budgeting, and personnel retirement requirements. WSIPC will install the Software either at a site hosted or purchased by WSIPC or at a locally designated site. Software included is posted on our website: <https://www.nwrdc.net/about-us/services/>.

Warranty

WSIPC warrants that upon delivery by WSIPC: (a) the Software will perform substantially in accordance with its written specifications established by WSIPC; and (b) the Software does not infringe any U.S. patent or copyright. WSIPC does not warrant that the Software is free from bugs, errors, or omissions. The exclusive warranties set forth in this paragraph apply only to the latest release of such items of Software incorporating all corrections, updates, enhancements, and modifications made available by WSIPC.

Performance Remedy

As Licensee's exclusive remedy and WSIPC's entire liability, if any Software subject to the warranty set forth in Cooperative Supported Products listed on our website at <https://www.nwrdc.net/about-us/services/>, fails to comply with the warranty set forth WSIPC will use reasonable efforts to correct the noncompliance (e.g., by furnishing an update, new release, enhancement, or modification of the noncomplying Software); provided that (i) Licensee notifies WSIPC of the noncompliance and (ii) WSIPC is able to reproduce the noncompliance on the hardware for which the Software was designed. If after the expenditure

of such reasonable efforts and the expiration of a reasonable time period WSIPC is unable to correct any such noncompliance, WSIPC will refund to Licensee a pro rata portion of the license fee paid by Licensee during the then current Year for that portion of the Software found to be noncomplying. Such refund will be in full satisfaction of all claims of Licensee relating to such noncompliance.

Grant & Limitations

WSIPC grants through NWRDC a nontransferable, nonexclusive license during the Term to use the software and documentation for District data operations. The District will not disclose or make available any software or documentation associated with this Agreement to any parties or persons not using the same on behalf of the District. Nor will the District change, modify or alter any software without prior written permission from WSIPC through NWRDC. In short, the District agrees that it shall safeguard all proprietary materials being serviced by WSIPC and shall not infringe on or violate any vendor license agreements WSIPC has entered into on their behalf. If a vendor working on behalf of the District needs to access data in a way not provisioned through the software, the vendor will be required to sign a Non-Disclosure Agreement with WSIPC.

Software Updates

WSIPC agrees to keep current with software licensed from Skyward and will install new versions on a timeline that will be communicated to ISC's and School Districts.

School District Workstations

Configuration requirements for devices and their software that school district personnel use to access WSIPC's software modules can be found on our website:

<https://www.nwrdc.net/technology-team/>.

State Reports

WSIPC will provide, at no additional fee, all data reports required by the state that impact 50% or more of the school districts in the state. WSIPC and NWRDC will work with state agencies to gather requirements on the required data. WSIPC will inform NWRDC staff of any mandated changes to state reports and NWRDC will communicate the information to the District.

WSIPC SaaS Modules

WSIPC may provide additional software to enhance or supplement WSIPC's standard offerings. The costs for these services are often in addition to the normal FTE fee. Refer to [Addendum I](#) for the current listing of SaaS software offerings.

WSIPC Purchasing Program

The WSIPC Purchasing Program (WPP) provides opportunities for districts, schools, associations, and government entities to purchase technology at competitive Cooperative pricing. To save the Cooperative money and time, WSIPC has a procedure to competitively bid all vendors in the Purchasing Program via RFP. The WSIPC bid process adheres to a sealed, competitive bidding process to negotiate contracts that abide by state procurement requirements.

Advance communication will be sent to the NWRDC Director and WSIPC Operations departments. At the conclusion of downtime, communication will be sent to this same group.

SMS 2.0 Release Weekend: Saturday; 12:00AM – 9:00 PM

Approval required by the Data Center Director(s) and WSIPC Operations department heads. Advance communication will be sent to the Data Center Director(s) and WSIPC Operations departments. At the conclusion of downtime, communication will be sent to all data centers and WSIPC Operations departments. The approved down time schedule will be communicated regularly throughout the year to reduce the number of surprises to Cooperative members.

Qmlativ Releases

WSIPC Qmlativ software update releases are an automated function. WSIPC has designated the timeframe of 11 PM to 5 AM for these functions. The frequency of releases is biweekly, and patches when needed. Timing can change at the direction of Skyward.

Emergency Downtime

Emergency downtime can be performed for degradation of hardware or software components for which either of the following is true:

- The software or hardware is part of the failover system for a mission-critical system.
- The software or hardware is a single point of failure for a mission critical system.

Emergency downtime can be requested between the hours of 6:00 PM and 6:00 AM with same-day notice or an agreed upon elected time with same-day notice. Advanced communication will be sent to the Data Center Director(s) and WSIPC Operations departments. At the conclusion of downtime, communication will be sent to this same group.

Service Continuity

In the event of complete failure of the SMS 2.0 centralized hosting provided by the Cooperative a failover system is in place for limited mission-critical access to core software and data systems. Backup or redundant capacity exists for database, servers and network. This failover capacity will only be used for dramatic and sudden system failure of the primary hosting center, but will not be utilized during normal, routine, or scheduled down time. WSIPC also has a redundant network link to provide connectivity in the event of an outage with the primary K-20 circuit. Virtual Router Redundancy Protocol (VRRP) communicates to two routers, K-20s 10GB router and the Comcast router connected to a provisioned switch.

SOFTWARE

Delivery

WSIPC, in conjunction with NWRDC, will ensure the software WSIPC provides complies with state reporting, budgeting, and personnel retirement requirements. WSIPC will install the Software either at a site hosted or purchased by WSIPC or at a locally designated site. Software included is posted on our website: <https://www.nwrdc.net/about-us/services/>.

Warranty

WSIPC warrants that upon delivery by WSIPC: (a) the Software will perform substantially in accordance with its written specifications established by WSIPC; and (b) the Software does not infringe any U.S. patent or copyright. WSIPC does not warrant that the Software is free from bugs, errors, or omissions. The exclusive warranties set forth in this paragraph apply only to the latest release of such items of Software incorporating all corrections, updates, enhancements, and modifications made available by WSIPC.

Performance Remedy

As Licensee's exclusive remedy and WSIPC's entire liability, if any Software subject to the warranty set forth in Cooperative Supported Products listed on our website at <https://www.nwrdc.net/about-us/services/>, fails to comply with the warranty set forth WSIPC will use reasonable efforts to correct the noncompliance (e.g., by furnishing an update, new release, enhancement, or modification of the noncomplying Software); provided that (i) Licensee notifies WSIPC of the noncompliance and (ii) WSIPC is able to reproduce the noncompliance on the hardware for which the Software was designed. If after the expenditure

of such reasonable efforts and the expiration of a reasonable time period WSIPC is unable to correct any such noncompliance, WSIPC will refund to Licensee a pro rata portion of the license fee paid by Licensee during the then current Year for that portion of the Software found to be noncomplying. Such refund will be in full satisfaction of all claims of Licensee relating to such noncompliance.

Grant & Limitations

WSIPC grants through NWRDC a nontransferable, nonexclusive license during the Term to use the software and documentation for District data operations. The District will not disclose or make available any software or documentation associated with this Agreement to any parties or persons not using the same on behalf of the District. Nor will the District change, modify or alter any software without prior written permission from WSIPC through NWRDC. In short, the District agrees that it shall safeguard all proprietary materials being serviced by WSIPC and shall not infringe on or violate any vendor license agreements WSIPC has entered into on their behalf. If a vendor working on behalf of the District needs to access data in a way not provisioned through the software, the vendor will be required to sign a Non-Disclosure Agreement with WSIPC.

Software Updates

WSIPC agrees to keep current with software licensed from Skyward and will install new versions on a timeline that will be communicated to ISC's and School Districts.

School District Workstations

Configuration requirements for devices and their software that school district personnel use to access WSIPC's software modules can be found on our website:

<https://www.nwrdc.net/technology-team/>.

State Reports

WSIPC will provide, at no additional fee, all data reports required by the state that impact 50% or more of the school districts in the state. WSIPC and NWRDC will work with state agencies to gather requirements on the required data. WSIPC will inform NWRDC staff of any mandated changes to state reports and NWRDC will communicate the information to the District.

WSIPC SaaS Modules

WSIPC may provide additional software to enhance or supplement WSIPC's standard offerings. The costs for these services are often in addition to the normal FTE fee. Refer to [Addendum I](#) for the current listing of SaaS software offerings.

WSIPC Purchasing Program

The WSIPC Purchasing Program (WPP) provides opportunities for districts, schools, associations, and government entities to purchase technology at competitive Cooperative pricing. To save the Cooperative money and time, WSIPC has a procedure to competitively bid all vendors in the Purchasing Program via RFP. The WSIPC bid process adheres to a sealed, competitive bidding process to negotiate contracts that abide by state procurement requirements.
