Guidance for Completing PreK-K Transition Report

Thank you for taking the time to complete the PreK-K Transition Report for the children in your program! You are part of a growing movement to develop closer connections between preschool (PreK) and kindergarten (K) teachers that support children and families as they transition to kindergarten.

**Page 1 – Parent/Child Information and Release**

1. Complete all information. Reports without Anticipated School and/or District or Parent/Guardian Release of Information signature cannot be shared.

2. The Just Thought You’d Like to Know! (From the Family) section is meant to be completed by the child’s parent(s) or guardian(s). This section is optional but allows families to include anything that they would like to share with their child’s K teacher prior to the start of school. Please note that family information must be treated with the highest regard for confidentiality.

3. After completing the entire report, obtain parent/guardian release of information to share it with the anticipated school. This section is required.

**Pages 2 & 3 – Language & Literacy and Student Writing Sample**

1. Check the most appropriate box, Rarely, Sometimes, or Consistently, for each language and literacy developmental objective listed.

2. Follow the instructions on Page 2 for the Student Story and Writing Sample.

3. After the child has written his/her name and drawn their story on Page 3, ask them to retell it orally and write the words in the Student Story space provided on Page 2.

**Page 4 – Additional Developmental Objectives**

1. Check the most appropriate box, Rarely, Sometimes, or Consistently, for each developmental objective listed.

2. The Just Thought You’d Like to Know! (From the PreK Teacher) section is optional but allows teachers to include anything else that they would like to share, including unique characteristics and/or accomplishments. Please consider the “whole child” and make statements objective and strength-based.

3. If, at any time, you are concerned about the development of a child in your program, please don’t hesitate to share your observations with the child’s parent(s)/guardian(s). You are also encouraged to contact the child’s anticipated school, with parent approval, for information about developmental screening and early intervention.
