

## STEMINAR: CHANGING THE GAME FOR GIRLS IN STEM

The Skagit STEM Network is partnering with Techbridge, a nonprofit that inspires girls in underserved communities to discover a passion for technology, science, and engineering. Together, we'll host a FREE STEMinar: **Changing the Game for Girls in STEM** on Monday, April 24, 2017. Who's invited: After-school and summer program providers that host STEM programs, as well as teachers who host after school STEM-based clubs. The training will focus on best practices for recruiting girls, as well as building inclusive spaces for girls in co-ed STEM programs. Co-ed STEM programming reflects the STEM workforce of today, in which women are vastly underrepresented. Please join us for this dynamic training that will help build equity across our community.

When: Monday,  
April 24, 2017  
11:30– 2:00  
Lunch provided

---

Where:

Angst Hall, Room 125  
Skagit Valley College  
2405 E. College Way  
Mount Vernon, WA

---

Who: After-school  
and summer program  
providers

---

Who Else: Teachers  
who host STEM clubs  
outside the classroom

---

Why: To build equity  
for women in STEM
