District Implementation Considerations and Timeline

Planning (July - October, 2013)

	Goals
•	How will your district define high quality student learning goals?
•	Has your district established a common format for goal setting (i.e., SMART goals)?
•	Which parts of the OSPI Student Growth Module might help?
•	Has your district identified a preferred or required process/timeline for teachers to complete goal setting?
•	How can you guide teachers to consider district initiatives in their goal setting process?
•	How can you help principals create their own student growth goals based on the goals being set by teachers in their building?
•	If your district uses eVAL, has the format/process/timeline been made available to teachers and their evaluators inside eVAL?
•	Will your district support a paper/pencil goal- setting format/process?
•	Will individual teacher's student growth goals connect to school or district SIP goals, PLC efforts or other initiatives (required, preferred, no position)?
•	What time is being set aside for all administrators to learn about the goal-setting process? Who will teach the evaluators about goal setting?
•	How can you ensure that evaluators of teachers have opportunities to dialogue about goal setting in order to assure consistency across the district?
•	What time is being set aside for all evaluatees in the new system to learn about the goal setting process? Who will teach the teachers?
•	Do you want evaluators or teachers (or both) to review OSPI's goal setting module? By when? How to monitor?
•	Who can help shape the communications plan to make information and decisions public and assure that messages remain consistent across the district?

Monitoring (December - February)

•	How are teachers using formative assessment to monitor student progress toward the goal and to differentiate instruction for all students (Criterion 6) or students in the subgroup (Criterion 3)?	
•	Do teachers have timely formative data from district-level measures?	
•	Can teachers describe their progress towards goal(s)?	
•	How are the evaluator and the district supporting teachers' efforts?	
•	How can other leaders (dept heads, PLCs, mentors, coaches) support teachers' development of knowledge and skills to do this work well?	
•	How are teachers sharing what they are learning?	
	What patterns are emerging?	
•	What opportunities and processes will teachers and principals use to calibrate progress towards student growth goals?	

Reflecting (March - May)

•	How will the district help assure that spring learning data are available to evaluate achievement towards goal(s)?	
•	What time is being set aside for evaluators to discuss evidence of goal achievement with teachers?	
•	What time is being set aside for evaluators to dialogue about goals set in order to move towards rater agreement on the student growth rubric?
