

## **Student Growth Comparison Protocol**

Purpose: Deepen understanding of student growth in rubrics

Materials: *Analysis of Student Growth Criteria for Principals & Teachers*

### ***Protocol – Work in Triads or at Tables***

- |           |                                                                                                                                                                                                         |
|-----------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 7 minutes | Examine the ‘Teacher’ row on the chart to determine similarities and differences between the student growth criteria for principals and teachers. Feel free to draw arrows to illustrate relationships. |
| 7 minutes | Who will the principals have to work with for criteria 3 to reach their goals to close the achievement gap? Criteria 5? Criteria 8?                                                                     |
